

ADVANCE NOTICE

of

Lectureships/Senior Lectureships in Biomaterials and in Biomedical Engineering

Department of Engineering Materials

The Biomaterials/Tissue Engineering/Biomedical Engineering Group within the Department of Engineering Materials is seeking applications for two posts from candidates with proven expertise of working on the life sciences/physical sciences interface. Candidates will establish their research within the Kroto Interdisciplinary Research Institute joining the above group working on the Bio/Engineering interface.

Lectureship/Senior Lectureship in Biomaterials.

Candidates with research experience in polymers for biological applications and or surface science engineering are particularly welcome to apply. Successful candidates will be expected to contribute to biomaterials teaching on our accredited BEng/MEng degree in Biomaterials Science and Tissue Engineering.

Lectureship/Senior Lectureship in Biomedical Engineering.

Candidates with established research experience in any area of biomedical engineering are invited to apply. Successful candidates will be expected to play a major teaching role in our established accredited BEng/MEng degree in Biomedical Engineering.

Both posts are available from 1st August 2008.

These will be advertised on the University of Sheffield Website this week and externally in the Guardian on the 28th April.
